Termsheet

Barrier Reverse Convertible on Warner Bros Discovery Inc, Lumen Technologies Inc and AT&T Inc with a coupon of 23.15% p.a.

This Termsheet is available exclusively in English.

The product described in this document ("Notes") does not constitute a participation in a collective investment scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("CISA"). Therefore, the Notes are not subject to authorization and supervision by the Swiss Financial Market Supervisory Authority FINMA ("FINMA"), and investors in the Notes will not benefit from protection under the CISA or supervision by FINMA. Investors in the Notes bear a credit risk on the Issuer and ultimately on the Guarantor.

This Termsheet does neither constitute a prospectus or similar communication pursuant to the Swiss Financial Services Act, as amended ("FinSA") nor the final terms with respect to the Notes and has not been reviewed or approved by or filed with a review body pursuant to article 52 of the FinSA. This document is of summary nature only and may be considered to be marketing material. The Notes are not Specified Notes for purposes of Section 871(m) of the U.S. Internal Revenue Code of 1986.

1. PRODUCT DESCRIPTION

OVERVIEW

The Barrier Reverse Convertible is a product for investors who expect the value of the Underlyings to increase slightly or remain at current levels. It offers investors a Coupon as further set out herein irrespective of the performance of the Underlyings. The potential return on the Note is capped by the positive difference between (i) the Final Redemption Amount plus the aggregate Coupons paid under the Note and (ii) the price paid by an investor for the Note.

The Final Redemption Amount payable in cash on the Maturity Date (1 September 2023) depends on the performance of the Underlyings, and may be substantially lower than the Issue Price multiplied by the Specified Denomination if on the last Valuation Date, a European Knock-In Event occurred, i.e. the relevant value of one or more Underlying(s) is lower than the level of the Knock-In Threshold (80% of S(0,k)).

Each Note will be redeemed at an amount equal to 100% of the Specified Denomination if on the last Valuation Date (25 August 2023), no European Knock-In Event occurred (**Scenario 1**). However, if on the last Valuation Date (25 August 2023) a European Knock-In Event occurred, the investor will be exposed to the negative performance of the worst performing Underlying as of such last Valuation Date (25 August 2023) (**Scenario 2**). In this scenario, investors could suffer a substantial or total loss of the amount invested: the Final Redemption Amount will be equal to the Specified Denomination multiplied by the ratio of (i) the closing price on the last Valuation Date (25 August 2023) of the worst performing Underlying over (ii) its closing price on the first Valuation Date (25 August 2022).

Payments due under the Notes are guaranteed by the Guarantor by a first demand guarantee governed by **French law (Paris Courts)** having jurisdiction) without recourse to the Issuer.

SWISS TAXES

Swiss Federal Stamp Duty	<p>Primary market transactions concerning the product are not subject to Swiss stamp transfer tax.</p> <p>Secondary market transactions concerning the product are not subject to Swiss stamp transfer tax.</p> <p>The cash redemptions of the product are not subject to Swiss stamp transfer tax.</p>
Swiss Income Tax	<p>This product is classified for Swiss tax purposes as a transparent non-Swiss bond-like derivative financial instrument without a predominantly one-time interest payment ("Obligationen-ähnliches Produkt ohne überwiegende Einmalverzinsung"; non-IUP). As a result, the interest component of the Coupon payments generated by the product is taxable income at payment date for Swiss resident individual investors. Any negative interest is not tax deductible. The option premium component of the Coupon payments generated by the product and any gain on the disposal of the product are tax-free for Swiss resident individual investors holding the product for private investment purposes. A capital loss is not tax-deductible. The information regarding the split of the Coupon (interest component and option premium component) is available in the term sheet of the product.</p> <p>The annualized Coupon payment of 23.15% is split into two components: 0.75% interest payment which is subject to income tax and 22.40% premium payment which is classified as a capital receipt.</p>
Swiss Withholding Tax	<p>This product is not subject to Swiss withholding tax.</p> <p>The summary on Swiss Taxation does not purport to address all tax consequences linked to the Notes that may be relevant to a decision to purchase, own or dispose of the Notes and does not constitute, and should not be construed to constitute, tax advice. No representation as to the tax consequences to any particular person is made hereby. Investors are advised to consult their own tax adviser in light of their particular circumstances as to the tax consequences of purchasing, holding or disposing of the Notes. Tax laws and tax doctrine may change, possibly with retroactive effect.</p>

2. PROSPECTS OF PROFIT AND LOSSES

Market Expectation	The Barrier Reverse Convertible is a product for investors who expect the closing price of the worst performing Underlying to increase slightly or remain at current levels.
Risk Tolerance	Investors in this Barrier Reverse Convertible should be experienced investors and familiar with both derivative products and the financial market. Investors should be able to tolerate significant fluctuations, as returns can be highly volatile. Moreover a high Coupon can indicate a higher risk, in that the rate of the Coupon relative to the rate of the risk-free return indicates the overall risk of the product.
Profit Potential	The profit potential is limited to the Fixed Coupon Amount(s).
Loss Potential	The downside risk of a Barrier Reverse Convertible is similar to the risk of an investment in the worst performing Underlying for which the investors could lose their total investment if the closing price of the worst performing Underlying falls to zero on the last Valuation Date.

3. SIGNIFICANT RISKS FOR INVESTORS

This section cannot disclose all the risks related to the Notes and must be read in conjunction with the risks set out under "Risk Factors" in the Base Prospectus (including, without limitation, general operational risks, conflicts of interests, and the risk that hedging and trading activities by the Issuer or the Guarantor (or any of their affiliates) may affect the value of the Notes) and the risk disclosure brochure "Risks Involved in Trading Financial Instruments" (Edition 2019), which is available for free on the Swiss Bankers Association's website www.swissbanking.org/en/topics/information-for-private-clients/useful-information .

Structured products such as the Notes described in this document are complex and may involve a high risk of loss. Prior to investing in the product, investors should seek independent financial, tax, accounting and legal advice.

Credit risk: Investors take a credit risk on the Issuer, and ultimately on Société Générale as guarantor of the obligations of the Issuer in respect of the product according to the terms and conditions of the guarantee (available at the Guarantor's office upon request). Thus Société Générale's insolvency may result in the partial or total loss of the invested amount. The market value of the product can decrease significantly below its nominal value as a result of Société Générale's creditworthiness.

Recourse limited to the Guarantor: By investing in this product investors acknowledge that they shall have no recourse against the Issuer in the event of a payment default by the Issuer with respect to any amount due under the product, i.e. no investor has the right to institute any proceeding or to otherwise assert a claim against the Issuer of the product to enforce the relevant payment under the product. However, this is without prejudice to the investors' rights under the guarantee of the Guarantor.

Bail-in: The Bank Recovery and Resolution Directive (BRRD) provides "Resolution Authorities" across the European Union with a comprehensive set of tools to deal with failing European financial institutions by using amongst other things the "bail-in". If the Issuer and/or the Guarantor becomes subject to resolution measures in the form of bail-in, investor's claim may be reduced to zero, converted into equity or its maturity may be postponed. This may result in losses on the invested amount, regardless of the capital protection of the product, if any.

No capital protection: For products which include a risk of capital loss, the redemption value of such products may be less than the amount initially invested. In a worst case scenario, investors could sustain the loss of their entire investment. Moreover, regardless the level of the capital protection, the investor may lose part or all of the initially invested amount before the maturity date, if the product is sold by the investor.

Events affecting the underlying instrument(s) or hedging transactions: In order to take into account the consequences of certain events affecting the underlying instrument(s) on the product or hedging transactions, the product's documentation provides for (a) mechanisms to adjust or substitute underlying instrument(s), (b) the deduction of the increased cost of hedging from any due amount, (c) monetization and accordingly, de-indexation of the pay-off formula for all or part of the amounts payable under the product from the underlying instrument(s), and (d) the early redemption of the product by the Issuer. Any of these measures may result in losses on the product regardless of the capital protection of the product, if any.

Currency exchange risk: When the underlying asset(s) is/are quoted and/or expressed in a foreign currency and/or, in the case of an index or an asset basket, it contains components expressed and/or quoted in one or several foreign currency(ies), the value of the investment may increase or decrease as a result of the value of such currency(ies) against the euro or any other currency in which the product is expressed, unless the product includes a currency exchange guarantee. Investors may be exposed to a further currency risk and the value of the Notes may decrease or increase due to currency fluctuations if the Notes are denominated in a currency other than the currency of the country in which the investor is resident.

Market risk: The product may at any time be subject to significant price movement which may in certain cases lead to the loss of the entire amount invested. Certain products may include embedded leverage, which amplifies the variation, upwards or downwards, in the value of the underlying instrument(s) which may result, in a worst case scenario, in the partial or total loss of the invested amount.

Risk relating to unfavourable market conditions: The fluctuations in the marked-to-market value of certain products may require the investor to make provisions or resell the products in whole or in part before maturity, in order to enable the investor to comply with its contractual or regulatory obligations. As a consequence, the investor may have to liquidate these products under unfavourable market conditions, which may result in the partial or total loss of the invested amount. This risk will be even higher if these products include leverage.

Liquidity risk: This product entails a materially relevant liquidity risk. Certain exceptional market circumstances may have a negative effect on the liquidity of the product. The investor may not be able to sell the product easily or may have to sell it at a price that significantly impacts how much he gets back. This may entail a partial or total loss of the invested amount.

Bid / offer spread: If Société Générale provides secondary market prices during the term of a product, there will be a difference between the bid and offer prices (spread), and this spread may decrease or increase during the term of the product.

Information in the event of a buy back by Société Générale or of an early termination of the product: Société Générale may commit to ensure a secondary market. The performance of this commitment shall depend on (i) general market conditions and (ii) the liquidity conditions of the underlying instrument(s) and, as the case may be, of any other hedging transactions. The price of such products (in particular, the "bid/offer" spread that Société Générale may propose for the repurchase or early termination of such products) will include, inter alia, the hedging and/or unwinding costs generated by such a buy back for Société Générale. Société Générale and/or its subsidiaries cannot assume any responsibility for such consequences and for their impact on the transactions relating to, or investment into, the relevant products.

Conflict of Interest: The valuation of a product may be linked to the spot price or the fixing of underlying financial instruments or other asset types (the "underlying assets"). At any time, Société Générale and its affiliates may trade in such underlying assets on own account or on behalf of their clients who may have similar or opposite interests to investor's own, or act, without limitation, as derivatives counterparty, hedging party, issuer, market maker, broker, structurer, advisor, distributor, placing agent, guarantor, asset manager, custodian or calculation agent in relation to such underlying assets, which might have an impact on such underlying assets' performance, liquidity or market value. Therefore, potential conflicts of interest may arise between the different divisions of Société Générale Group acting on such underlying assets on own account or on behalf of their clients, and investor's own. However, conflicts of interest are identified, prevented and managed in accordance with Société Générale's conflict of interest policy which summary has been communicated to the investor or is available upon request to his usual Société Générale contact.

Benchmarks: Investors in floating rate Notes and/or indexed on certain underlyings which are considered as benchmarks are exposed to the risk that : 1) such benchmarks may be subject to methodological or other changes which could affect their value, or 2) (i) may become not compliant with applicable laws and regulations (such as the Regulation (EU) No. 2016/1011 of the European Parliament and of the Council of 8 June 2016 (the **Benchmarks Regulation**)) ; (ii) may cease to be published (possible cessation of LIBOR publication or planned cessation of EONIA both after December 2021), or (iii) the supervisor or administrator of any such benchmark may make a statement that the relevant benchmark is no longer representative, and as a consequence the relevant benchmark may be replaced by another benchmark.

ADDITIONAL IMPORTANT INFORMATION

PRODUCT DOCUMENTATION

This document does neither constitute a prospectus or similar communication pursuant to the FinSA nor the final terms with respect to the Notes and has not been reviewed or approved by or filed with a review body pursuant to article 52 of the FinSA.

This document is of summary nature only and may be considered to be marketing material. The legally binding terms and conditions of the Notes are set out in the applicable Final Terms, the Base Prospectus and any Supplement(s) to the Base Prospectus (the Final Terms, the Base Prospectus and the Supplements, together, the "**Prospectus**"). Consequently, this document must be read in conjunction with such Prospectus. Unless the context requires otherwise, capitalised terms used in this document have the meaning given to them in the Prospectus (including the relevant Additional Terms and Conditions set out in the Base Prospectus) and definitions set out herein (partially in summarised form) are given for ease of reference only.

In case of discrepancy or inconsistency between this document and the Prospectus, the Prospectus shall prevail.

The applicable Final Terms, the Base Prospectus and any Supplement(s) to the Base Prospectus, together with the Guarantee, if any, and the key information document required by Regulation (EU) No 1286/2014, will be available, free of charge, upon request, at the office of Société Générale, Paris, Zurich Branch, Talacker 50, 8021 Zurich, Switzerland (Telephone : +41-44-272-33-00).

This document is not the result of a financial analysis and therefore, this document is not subject to the "Directives on the Independence of Financial Research" of the Swiss Bankers Association.

SELLING RESTRICTIONS

General - No prospectus has been, or will be, approved by the local regulator (if any) and no action has been, or will be, taken in any jurisdiction that would permit a public offering of the Notes, save in countries (if any) explicitly referred to in this document under "General Information - Public Offering" above and accordingly, the Notes may not be offered or distributed to the public in countries that are not expressly referred to in this document as countries in which the public offering of the Notes is authorized. It is each investor's responsibility to ascertain that it is authorised to subscribe for, or invest into, or to on-sell the Notes described herein. Investors are further advised to read the detailed selling restrictions set out in the Base Prospectus and any Supplement(s) to the Base Prospectus. Further, the underlying instrument(s) of certain products may not be authorized to be marketed in the country(ies) where such products are offered. The attention of investors is drawn to the fact that the offering of these products in this (these) country(ies) in no way constitutes an offer, or an invitation to make an offer, to subscribe to, or purchase, the underlying instrument(s) in such country(ies).

U.S. Selling Restrictions ("Regulation S U.S. Person"): The Notes described herein are not U.S. Exempt Securities. Accordingly, the Notes have not been registered under the U.S. Securities Act of 1933 and may not be offered, sold, pledged or otherwise transferred at any time except in an "offshore transaction" (as defined under Regulation S) to or for the account or benefit of a Permitted Transferee.

A "**Permitted Transferee**" means any person who: (a) is not a U.S. person as defined in Rule 902(k)(1) of Regulation S; and (b) is not a person who comes within any definition of U.S. person for the purposes of the U.S. Commodity Exchange Act (**CEA**) or any rule of the U.S. Commodity Futures Trading Commission (**CFTC Rule**), guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception for qualified eligible persons who are not "Non-United States persons," shall be considered a U.S. person) and (c) is not a "U.S. Person" for purposes of the final rules implementing the credit risk retention requirements of Section 15G of the U.S. Securities Exchange Act of 1934, as amended (the **U.S. Risk Retention Rules**) (a **Risk Retention U.S. Person**). The Notes are available only to, and may only be legally or beneficially owned at any time, by Permitted Transferees. By its purchase of a Note, each purchaser will be deemed or required, as the case may be, to make certain acknowledgements, representations and agreements set out in the Base Prospectus.

European Economic Area: For any country of the European Economic Area (i) in which the product is not admitted to trading on a regulated market and (ii) not expressly referred to, in this document, as a country in which a non-exempt offer of the product is authorised, THIS PRODUCT IS OFFERED ON AN EXEMPT OFFER BASIS and no prospectus has been approved in that country by the local regulator. The product cannot thus be distributed in that country by way of an offer, or an invitation to make an offer of securities to the public, as defined in Regulation (EU) 2017/1129 (the **Prospectus Regulation**).

Prohibition of Sales to EEA Retail Investors: The Notes must not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the "EEA"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU (as amended or superseded, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation.

Switzerland: If pursuant to the applicable Final Terms a public offering of the Notes in Switzerland is not permissible, the Notes must not be offered to the public in Switzerland except in accordance with the following exemptions as set out in the Swiss Federal Act on Financial Services, as the same may be amended from time to time ("**FinSA**"): (a) at any time to any investor which is a professional client as defined in the FinSA;

(b) at any time to fewer than 500 investors;

(c) where the Notes being offered have a minimum denomination of CHF 100,000 (or its equivalent in another currency); or

(d) at any time in any other circumstances falling within the scope of article 36(1) or article 37 of the FinSA,

provided that no such offer of Notes referred to in (a) to (d) above shall require the publication of a prospectus pursuant to article 35 of the FinSA or a supplement pursuant to article 56 of the FinSA.

For the purposes of this provision, the expression "**offer of Notes to the public**" in relation to any Notes means any promotion and invitation to the public (i.e. to an unlimited number of persons) to acquire Notes that contains sufficient information on the terms of the offer and the financial instrument itself.

France – No prospectus approved by the Autorité des Marchés Financiers will be established for this product. The offer, sale and distribution in France can only be made to (a) investment service providers linked to portfolio management on behalf of third parties; and / or (b) qualified investors (other than individuals) and / or a restricted circle of investors, as defined and in accordance with articles L.411-1, L.411-2, L.411-2-1, D.411-1 and D.411-4 of the French monetary and financial Code.

DISCLAIMER – IMPORTANT INFORMATION FOR INVESTORS

This document is of summary nature and does not constitute an offer, personal recommendation or solicitation to subscribe for, or purchase, the Notes described herein and should not be construed as giving investment advice. The Issuer has no obligation to issue the Notes, and the Notes described herein will be exclusively subject to the detailed provisions contained in the Final Terms, the Base Prospectus and any Supplement(s) to the Base Prospectus.

Section 871(m) of the U.S. Internal Revenue Code of 1986: U.S. Treasury regulations issued under Section 871(m) of the U.S. Internal Revenue Code of 1986 (**Section 871(m) Regulations**) generally impose a 30% withholding tax on dividend equivalents paid or deemed paid (within the meaning of the relevant Section 871(m) Regulations) to a non-United States holder (a **Non-U.S. Holder**) with respect to certain financial instruments linked to U.S. equities or indices that include U.S. equities (**U.S. Underlying Equities**). Specifically, Section 871(m) Regulations will generally apply to Notes issued on after 1 January 2017 and that substantially replicate the economic performance of one or more U.S. Underlying Equity(ies) as determined by the Issuer on the date for such Notes as of which the expected delta of the product is determined by the Issuer based on tests in accordance with the applicable Section 871(m) Regulations (for the purposes of the relevant notices, such Notes are deemed "delta-one" instruments) (**Specified Notes**). Notes linked to U.S. Underlying Equities which the Issuer has determined not to be a Specified Note will not be subject to withholding tax under Section 871(m) Regulations. If one or more of the U.S. Underlying Equities are expected to pay dividends during the term of the Specified Note, withholding generally will still be required even if the Specified Note does not provide for payments explicitly linked to dividends.

Investors are advised that in withholding this tax, the Issuer will regularly apply the general tax rate of 30% to the payments subject to U.S. provisions (or amounts deemed payments) without regard to any applicable treaty rate. Therefore, in such cases, an investor's individual tax situation will not be taken into account. The applicable Final Terms will specify if the Notes are Specified Notes or Zero Estimated Dividends Securities. In the case of Notes that are Specified Notes, but not Zero Estimated Dividends Securities, the applicable Final Terms will specify whether the Issuer or its withholding agent will withhold tax under Section 871(m) Regulations and the rate of the withholding tax. In the case of Notes that are Zero Estimated Dividends Securities, the applicable Final Terms, will specify the rate of the withholding tax to be zero.. Investors are advised that the Issuer's determination is binding on all Non-U.S. Holders of the Notes, but it is not binding on the United States Internal Revenue Service (**IRS**) and the IRS may therefore disagree with the Issuer's determination. The rules of Section 871(m) Regulations require complex calculations in respect of the instruments that include U.S. Underlying Equities and application of these rules to a specific issue of Notes may be uncertain. Consequently the IRS may determine they are to be applied even if the Issuer initially assumed the rules would not apply. There is a risk in such case that Noteholders are subject to withholding tax ex post. As neither the Issuer nor the withholding agent will be required to gross up any amounts withheld in connection with a Specified Note, Noteholders will receive smaller payments in such case than they would have received without withholding tax being imposed. **Investors should consult their tax adviser regarding the potential application of Section 871(m) Regulations to their investment in the Notes.**

Information on commissions, remunerations paid to, or received from third parties: If, under applicable laws and regulations, any person (the "Interested Party") is required to disclose to prospective investors in the product any commission or remuneration that Société Générale and/or the Issuer pay(s) to, or receives from, such Interested Party in respect of the product, the Interested Party shall be solely responsible for compliance with such laws and regulations.

Information on data and/or figures drawn from external sources: The accuracy, completeness or relevance of the information which has been drawn from external sources is not guaranteed although it is drawn from sources reasonably believed to be reliable. Subject to any applicable law, neither Société Générale nor the Issuer shall assume any liability in this respect.

Information on simulated past performance and/or on future performance and/or on past performance: The value of your investment may fluctuate. When simulated past performance or past performance is displayed, the figures relating thereto refer or relate to past periods and are not a reliable indicator of future results. This also applies to historical market data. When future performance is displayed, the figures relating to future performance are a forecast and are not a reliable indicator of future results. Furthermore, where past performance or simulated past performance relies on figures denominated in a currency other than that of the country of residence of an investor, the return for such investor may increase or decrease as a result of currency fluctuations. Finally, when past or future performance or simulated past performance is displayed, the potential return may also be reduced by the effect of commissions, fees, taxes or other charges borne by the investor.
